BID OPENING & QUOTES:

WELL #3 Repairs: John Graupman, Bolton & Menk, presented the maintenance issues with Well #3. The well is currently shut down due to sand getting in through the screen and is being pumped out of the well. The work is outside the warranty period. It is rare for this to fail this bad this quickly after construction. The well went on line the first part of 2010. The well will be televised prior to installation of new screen to see if it can be determined what exactly happened. The estimate to repair from Searles Well Drilling is \$7,875.00. Searles is willing to discount the repairs to \$5475.00. This amount may be negotiable subsequent to the televising of the well. Motion by Todd Kiecker, second by Cindy Fahey to approve the repairs by Searles Well Drilling in the amount of \$5,475.00. Motion carried.

Snow Plow Truck: 2001 Sterling single axle dump truck with one way plow 9' wing and sander. The cost of the truck is \$38,200.00. - Library furnishings that are not being used. Post a for sale note in the library. Selling ice cream parlor chairs, children's chairs, and children's table.
- Bolton & Menk wanted to know if the council wanted the wearing course put on this year on Park Street in the business district. Council determined it should be done next year along with the rest of the streets.

<u>Kevin Hagen</u>: Police report submitted along with the plan for the renovation of the old library into the Police Department. Cost estimates will be submitted at next meeting.

Jack Kiecker: Requested the Council contract with Chuck Firle to haul more dirt out from the compost site. The cost is \$ 70.00 per load. Motion by Brad Augustin, second by Todd Kiecker to approve contract with Chuck Firle at \$ 70.00/load. Also to budget annually \$ 3,500.00 for the removal under the compost site expense and maintenance allocation. Discussed burn permit for compost site. Fire Chief, Jim Schroeder, stated the Fire Dept. would be willing to burn the compost on a drill night if the city obtains a permit to burn from DNR at compost site. The permit would require the site to be gated and open hours posted. Council determined that a location at the site should be established and signage installed for coals, ashes, recreational fire debris to preclude the brush pile from starting on fire. If this does not remedy it, a burn permit and controlled access will be considered.

COMMITTEE REPORTS: None
